COMMENTS FROM SOME OF OUR PARTNERS

From a T.E.A.C.H. funder:

“T.E.A.C.H. Ohio is an integral part of our State’s professional development system, it links our community based training to formal education and above all it changes the lives of those touched, both teachers and the children they serve. Our State has reaped many benefits that we can’t show in numbers alone. The attainment of the Child Development Associate Credential, or Associates or Bachelor Degree for many individuals is the first major milestone that has brought a sense of I can do anything for those that gave up on continuing their education. It

has not only impacted their lives, but their families as well, economically and serving as role models to their children and other family members. Equally important, every year more of Ohio's youngest citizens "our children" are being taught by teachers who understand how they develop and learn."

From a T.E.A.C.H. graduate:

"Obtaining additional education has impacted my daily work with the children and their families tremendously. I have learned to do early evaluations in order to target the areas where my children may need it most. I have learned how to include my parents in the evaluations. I have also learned to create portfolios of my student's best work. I have learned how to create lesson plans for my students in all of the common core areas. Mostly, I have gained the knowledge of helping my children to enter kindergarten with the skills needed to be successful students in our global economy."

From a T.E.A.C.H sponsor:

"Making the decision to sponsor Amanda through the T.E.A.C.H. scholarship is a decision that I am grateful that we made as a center. Amanda has been attending the University of Cincinnati online for over a year with the help of the T.E.A.C.H. scholarship. The improvements we have seen in her as a teacher during this time are astounding. The knowledge and confidence that she is gaining is astounding. We are proud to have her at our center, and proud of the teacher that she is becoming!"
